SUSTAINABILITY & CERTIFICATIONS

J.S. McCarthy makes a serious commitment to our environment. We believe that environmental printing extends beyond chain of custody, certifications, and marketing buzzwords. We harness 100% of the power we use from the wind. All production is done in our Safe Quality Food (SQF) certified facility. Our lean manufacturing initiatives are aimed at eliminating waste in all aspects of our workflow. Environmental stewardship is part of the culture at J.S. McCarthy. Every day, our team strives to find innovative ways to protect our earth. Not only is it the right thing to do, it's just good business!
